Lee-Roy Chako

FULL STACK MOBILE DEVELOPER

Profile

Innovative Programmer and Internet Entrepreneur striving to make the world a more unified and connected place. I have developed software coding skills from the age of 18 in high school and have managed to participate in various projects both in Zimbabwe and abroad. I happen to be a creative thinker and a computer enthusiast. I currently have a list of projects in the mobile sector and recently have been working with blockchain and AI technology.

Hobbies

I enjoy building software on my spare time, scripts that make my day to day tasks easier. Away from the screen or from the computer I like taking evening walks to refresh, reading books, newpapers and other material that enhances my knowledge in various industries
